EXECUTIVE SUMMARY SHEET
CITY OF SAN DIEGO

DATE ISSUED: _____ REPORT NO: _____
ATTENTION: Council President and City Council
ORIGINATING DEPARTMENT: San Diego Fire-Rescue Department
SUBJECT: Fireman's Fund Heritage Grant Program
COUNCIL DISTRICT(S): All
CONTACT/PHONE NUMBER: Assistant Chief Jeff Carle/ 533-4401

REQUESTED ACTION: Authorize the Mayor or his representative to accept \$9332 additional dollars from the Fireman's fund Heritage Grant Program for the purchase of two thermal imaging cameras and a Carbon Monoxide monitoring device for the San Diego Fire-Rescue Department; authorize the Auditor and Comptroller to accept, appropriate and expend funds from this grant program, and to disburse it from the existing special interest-bearing fund established for this grant program.

STAFF RECOMMENDATION: Approve the resolutions.

EXECUTIVE SUMMARY: Fireman's Fund Insurance Company established the Fireman's Fund Heritage Grant Program in 2004. Since this fund was established, the San Diego Fire-Rescue Department has received approximately \$251,000 for the establishment of our CERT program, the purchase of specialized Self-Contained Breathing Apparatus repair and monitoring equipment, and the purchase of specialized technical rescue equipment for our Rescue Company, Rescue 4. In June of 2007, the Council also authorized the Department to apply for additional funding for use at Fire Station 1, and the amount initially approved was approximately \$10,500. In the intervening period from Council Action and grant application, the amount of the grant was increased to a total of \$19,832 due to additional funding from the Heritage Program being made available. The difference from the original amount approved by Council Action equals \$9332, the amount referred to in this request. The equipment will be used at Fire Station 1. The thermal imaging cameras will be placed on Engine 1 and Engine 201. The third piece of equipment is a new innovation that will allow us to monitor Carbon Monoxide levels in the fire fighters who have responded to fire emergencies, as well as victims from these incidents. This will provide a previously unavailable test in the field that previously required a painful blood test in a hospital setting.

FISCAL CONSIDERATIONS: There are no matching fund requirements of this grant, and no impact to the general fund.

PREVIOUS COUNCIL and/or COMMITTEE ACTION: The original grant funding referred to in the Executive Summary was approved by the Council in June of 2007.

COMMUNITY PARTICIPATION AND PUBLIC OUTREACH EFFORTS: None

KEY STAKEHOLDERS AND PROJECTED IMPACTS: Fire fighting personnel and the San Diego community are the key stakeholders. Protecting their health and safety, providing them

with the technological tools to see hidden fire, search for victims, and then to assess their medical condition and needs will be substantially improved.
